

Garden for a Bargain

A Family Affair:

Make sure the whole family is involved from deciding what seeds to plant to harvesting the produce.

Find a Space:

Whether you are planting a few indoor plants or rows of vegetables, find a good protected place to plant your garden.

Choose Good Ground:

Make sure the soil is suitable to growing vegetables. Check for large rocks or contaminants that could harm your plants.

Plan it Out:

Take time as a family to design your garden. Decide where to plant, where to keep the gardening tools and who is going to be in charge of what.

Plant Your Favorites:

Plant fruits and vegetables that your family will actually like to eat. Don't waste time planting produce that will go to waste if nobody likes them.

Use the calendar below to help set a watering and weeding schedule

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
